Optimal handling with powerful thrust

One particular distinguishing feature of the SEABOB F5 is its low weight. The E-Jet Power System in the SEABOB F5 is controlled in 4 power levels. These increments guarantee absolute fun and pleasure. Its special degree of dynamism in the water results from the high performance of the craft coupled with the low power-to-weight ratio.

The outstanding properties of the SEABOB F5 in terms of handling make it suitable for use in any water surroundings. It is at home in the sea. It demonstrates outstanding performance on the water surface and when diving. Owing to its high degree of manoeuvrability, the SEABOB F5 can be used in both small and large pool complexes.
